

Shahmeer Hassan

Nationality: Pakistani **Date of birth:** 27 Mar 2006 **Gender:** Male

Phone number: (+92) 3158152023 **Email address:** hassanshahmeer011@gmail.com

Whatsapp Messenger: +923158152023

LinkedIn: [Shahmeer Hassan](#)

Home: Street No.15,Ashraf Town, 48800 Chakwal (Pakistan)

ABOUT ME

A motivated and detail-oriented Artificial Intelligence student with a strong interest in machine learning, data structures, and software development. Skilled in Python programming and continuously improving problem-solving abilities. Eager to contribute to real-world projects and gain experience in a professional research or development environment.

EDUCATION AND TRAINING

Intermediate in Pre-Engineering(FSc)

Kalar Kahar Science College [14 Jul 2021 – 15 Jun 2023]

City: Chakwal | **Country:** Pakistan | **Field(s) of study:** Engineering and Engineering Trades | **Level in EQF:** EQF level 4

Bachelor of Science in Artificial Intelligence

HITEC University [12 Sep 2023 – Current]

City: Taxila | **Country:** Pakistan | **Website:** <https://www.hitecuni.edu.pk/> | **Level in EQF:** EQF level 6

- Programming fundamentals using Python and C++
- Data Structures and Algorithms
- Object-Oriented Programming
- Database Management Systems
- Software Engineering principles
- Problem solving and analytical thinking
- Introduction to Artificial Intelligence and Machine Learning
- Team collaboration and project development

WORK EXPERIENCE

Digital Empowerment Network – Islamabad, Pakistan

Website: <https://digitalempowermentnetwork.org/>

Machine Learning Engineer

[15 Jul 2025 – 2 Sep 2025]

- Developed and tested machine learning models for real-world applications
- Preprocessed and cleaned datasets for training and validation
- Collaborated remotely with team members on project timelines
- Documented model performance and presented findings
- Gained hands-on experience in supervised and unsupervised learning

SKILLS

Machine learning / Python / Data Analysis / Supervised learning / Unsupervised learning / Data preprocessing / Model training / Object-oriented programming (OOP) / SQL / Java / C++ / Scikit-learn / Pandas / NumPy / TensorFlow / Matplotlib / Deep learning / Data visualisation / Problem solving / Database management / Remote work

PROJECTS

FaceTrack-AI Real-time face detection and recognition system using Python and OpenCV. Captures facial data via webcam, trains recognition model, and performs live face identification using Haar Cascade classifiers.

Link: <https://github.com/Shahmeer01-ai/FaceTrack-AI>

AI Language Translator with Text-to-Speech Desktop application translating text into 8+ languages with audio playback. Built with Python, Tkinter, Google Translator API, and gTTS for speech synthesis.

Link: <https://github.com/Shahmeer01-ai/AI-Based-Translator->

Military Base Threat Assessment System Rule-based expert system for assessing air, ground, and cyber threats using forward/backward chaining. Built with Python and Tkinter, includes ontology graph visualization. Write here the description...

CERTIFICATIONS

[DeepLearning.AI & Stanford University, 30 Jan 2026]

Advanced Learning Algorithms Advanced machine learning algorithms including neural networks, decision trees, and ensemble methods.

Mode of learning: Project based

Link: <https://coursera.org/verify/NTS384R4N0RW>

[Google]

Foundations: Data, Data, Everywhere Fundamentals of data analysis, data lifecycle, and analytical thinking.

Mode of learning: Online

Link: <https://coursera.org/verify/1CAX1JVZCHMC>

[IBM]

Exploratory Data Analysis for Machine Learning Data exploration, visualization, and preprocessing techniques for machine learning pipelines.

Mode of learning: Online
